\*Included with International Handbell Symposium Registration

## AUGUST 1-6

International Handbell Symposium is held every two years, rotating between the eight different member countries of the International Handbell Committee (IHC): Australasia, Canada, Great Britain, Korea, Japan, Singapore, Hong Kong, and the United States of America. The symposium is the practical expression of the IHC vision, World Peace through the Spirit of Music.

## JULY 31-AUGUST 1

The flagship event presented by Handbell Musicians of America each year is National Seminar. The HMA Seminar Experience provides attendees a sampling of the options available at the full event. Over two days, choose classes in eight sessions and visit Handbell Commons, the space where our vendors will offer their products and services to event participants.

## JULY 30-AUGUST 1

College Ring-In is designed for young adult ringers, ages 18-30, to ring music at an advanced level under the direction of two of the handbell world's most acclaimed conductors. Participants will prepare music over two and a half days that will be performed on at the Opening Concert for the International Handbell Symposium.

## AUGUST 2-5

The International Youth Symposium provides youth of all ages, who ring at Level 2 or 3, the opportunity to participate in an international ringing event. Participants will have rehearsals and other activities over three and a half days and perform a dedicated concert the evening of August 5.
